

THE PINNACLE RANGE

CONTEMPORARY BEAUTY IN STEEL

Our new Pinnacle Range is comprised of four stylish profiles that take inspiration from the best in European design. These aesthetically pleasing, versatile styles have been created to convey strong, bold textures suitable for any architectural design. Choose from our Pinnacle Range for a beautiful finish on any structure.

RAVINE

This cladding will make a bold statement, with deep, slender ribs and wide, flat pans. It uses a concealed fixing system for a neat finish and it can also be tailored to your own specifications. Ravine complements any architectural design and is available in a variety of different finishes such as UniCote®, MagnaFlow™ and UniCote® Lux.

NON COMBUSTIBLE, TESTED IN ACCORDANCE TO AS 1530-3

HORIZON

For a versatile panel design, Horizon can be run vertically or horizontally. Horizon provides strong, clean lines for a contemporary solution on any structure. Choose from a number of different materials such as UniCote® or MagnaFlow™; or for a more elegant finish, choose from our luxury range, UniCote® Lux.

NON COMBUSTIBLE, TESTED IN ACCORDANCE TO AS 1530-3

ALPINE

Alpine is made up of broad flat pans and tall slender ribs to create an eye-catching, clean design. This panel has the option of two different fixing systems which allows the panel to be used for either roof or wall cladding. Alpine's simple design is available in a variety of finishes to create the look that you desire.

NON COMBUSTIBLE, TESTED IN ACCORDANCE TO AS 1530-3
